

A HUMAN APPROACH IN BUSINESS

Our History:

In 1960`s, a family spirit company is born on the name of **POLYTRA sarl** founded on three major bases.

- 1 – **Professional**
- 2 – **Commitment**
- 3 – **Continuity**

Since that time, we have been working hard to achieve that goal and to offer, useful and satisfaction result to our customers and to every person we engage with him in our business.

To maintain our strategy, our team follows regular seminars and training sessions, with our world wide suppliers, to keep high standard and best performance, in know how, sales and after sales service.

Today, after these years of experience **POLYTRA sarl** becomes a leader professional company growing up on its field, but without changing on its policy, extending our business to the Middle East, Gulf and Africa, stated as follow:

Middle East: Lebanon – Jordan – Syria – Iraq

Gulf: K.S.A – Bahrain – Qatar – Kuwait – U.A.E – Oman – Yemen

N. Africa: Sudan - Libya – Morocco – Algeria – Egypt.

Our Mission:

POLYTRA sarl deals as a business, contracting and manufacturing company, specialized in the medical fields having three major divisions:

- 1 – Medical Engineering, Planning and consulting.
- 2 – Medical equipment, Furniture and supplies.
- 3 – Kitchen and Laundry Equipment.

Based on these divisions, **POLYTRA sarl** is able to accomplish any project related to Hospitals, Clinics, Medical Center, Therapy, Rehabilitation, Emergency, Laboratory, Est. without changing on its basics:

- international medical norms
- On Time Delivery and Operational Achievements.
- After Sales Service and follow up.
- Sight training

The diversification of our portfolio is to meet competency, thus our Customers deserve the Right Choice.

Our Experience relies on the Expertise of our Team that follows a regular update Training.

The Know-How of our world wide Suppliers engages us to provide a better service performance based on UL & CE certify, which give us a high level experience on the medical field and the ability to get involved in *tern key job and International tenders.*

– Medical Engineering, Planning and consulting.
